

ARCHITECT PROGRAM

AZEK and TimberTech offer several informative tools to help Architects and Specifiers learn more about ideal use, design and installation of AZEK and TimberTech products.

AZEK AND TIMBERTECH ARCHITECT BINDERS

By visiting AZEK.com or TimberTech.com, you can access AZEK and TimberTech product information organized in a comprehensive binder for your product library. The binder contains detailed product information, 3-Part Specification Sheets, code listings and information on how to access CAD drawings of all products. These binders are also available on a flash drive and hard copy. If you wish to obtain a flash drive, or binder, please contact Derek Victor at derek.victor@cpgbp.com.

ARCAT

ARCAT is the leading online resource of FREE building product information. No registration is required.

ARCAT offers a wide variety of tools for the AEC community. Our profile includes our products, catalogs, green reports, local contact information and videos that can be used and downloaded free of charge. Find out how our products can help you save time and money with your projects! We are also listed on the ARCAT mobile app. The ARCAT app is available for the iPhone, iPad and android devices. The app is free of charge and free to use, now available on the App Store and Google Play.

PROFILES ON CADDETAILS.COM

We offer detailed product information, 3-Part Specification Sheets and CAD drawings of all AZEK and TimberTech products through the website CADdetails.com. This website provides instant access to up-to-date, manufacturer-approved building product information, free of charge.

PROFILES ON DESIGNGUIDE.COM

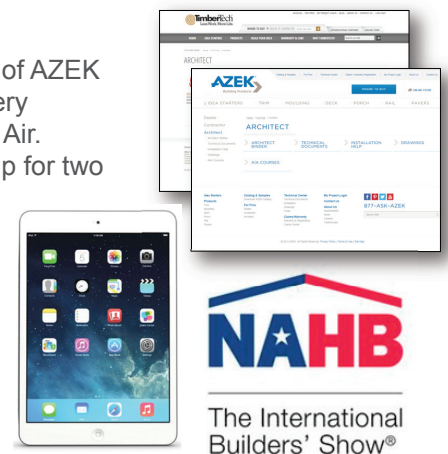

DesignGuide is a top online destination for building design professionals when sourcing building products. DesignGuide is considered a 24 hour online trade show, delivering over 25 million searches in 2013. The CPG Building Products profiles include company information, product information, links to CAD drawings, links to websites, and more.

ARCHITECT REWARDS

CPG Building Products wants to reward loyal architects for using our wide collection of AZEK and TimberTech products on residential and commercial projects. We will reward every specified project a chance to win big. We will have a monthly drawing to win an iPad Air. We will also have a grand prize drawing in November. You can win an all-inclusive trip for two to Las Vegas for the 2015 NAHB International Builders' Show. This grand prize includes flights arrangements, hotel accommodations, two entry passes into the show, and a \$300 Visa gift card.

Go to AZEK.com or TimberTech.com and locate our "For Pros" section and follow the Architect Rewards links to submit your specified project and earn a chance to win big!

AIA CONTINUING EDUCATION PROGRAMS

CPG Building Products is a registered provider of the American Institute of Architects (AIA) continuing education programs. Credits are offered for five courses:

1. Building a Better Deck & Rail Using Trends, Installation and Design Elements (CPGDECK101)
2. The Role of PVC in Sustainable Exterior Building Products (AZPVC101)
3. Cellular PVC and the Changing Face of Trim Products (AZTRIM101)
4. The Trend Towards Composite Masonry: A Greener Solution (AZPAVERS101)
5. The Evolution of Siding (AZSIDING101)

Each program can be brought to your firm or next chapter meeting for a lunch-and-learn presentation. Go to azek.com or timbertech.com and locate our “For Pros” section and follow the continuing education links to schedule your next lunch-and-learn presentation.

ASLA CONTINUING EDUCATION PROGRAMS

CPG Building Products is a Corporate Member of the American Society of Landscape Architects (ASLA). With this membership AZEK and TimberTech are associated with over 17,000 landscape architect and design professionals who specify \$140 billion in annual products and services. We are also able to provide continuing education through the ASLA education program that can be completed online. Go to AZEK.com or TimberTech.com and locate our “For Pros” section and follow the continuing education links to complete online.
